

Kata 15 - Organizing Instructors

Assignment

75 minutes

✔ Status

Complete

STRETCH ACTIVITY

This activity is marked as stretch. We strongly suggest you come back to it if/when you've completed all the core exercises for the prep course.

In this exercise, we will be given a list of instructors and we will create a single object to organize them based on their course.

Input

```
const organizeInstructors = function(instructors) {
  // Put your solution here
};

console.log(organizeInstructors([
  {name: "Samuel", course: "iOS"},
  {name: "Victoria", course: "Web"},
  {name: "Karim", course: "Web"},
  {name: "Donald", course: "Web"}
]));

console.log(organizeInstructors([
  {name: "Brendan", course: "Blockchain"},
  {name: "David", course: "Web"},
  {name: "Martha", course: "iOS"},
  {name: "Carlos", course: "Web"}
]));
```

Expected Output

```
{
  iOS: ["Samuel"],
  Web: ["Victoria", "Karim", "Donald"]
}
{
  Blockchain: ["Brendan"],
  Web: ["David", "Carlos"],
  iOS: ["Martha"]
}
```

 Create a function named **organizeInstructors** that will receive an array of instructor objects, and will return a new object that has the following format:

```
{
  CourseName: [instructors]
}
```

 Submit Your Work

- Browse to gist.github.com and create a new gist.
- Copy-and-paste your code into the form
- Name the gist and the file appropriately and click **Create secret gist**.
- Finally, mark this activity as completed (at the bottom of this page) and please copy/paste the *entire* browser URL for your gist (from *gist.github.com*) into the text field.
